Homework submission
All homework must be submitted until 21:00 on Wednesday (in the following week to their publication, unless specifically written on the exercise that two weeks are allowed). All students must submit the exercise in hard-copy (that is, on paper) either in the TA’s mailbox that is on the 12th floor of Broadway 715 or to hand in to the professor in class. Late submissions will not be graded, so it is better to submit on-time an incomplete assignment then nothing at all.

Grading policy
All homework will be graded on a 0-20 scale. In addition to the required hard copy of all assignments, students are encouraged to submit a TYPED (not scanned hand writing) soft copy by email. Therefore, students that would type their entire assignment, excluding necessary hand-drawn diagrams, would win a 2 points bonus for the assignment. However, no assignment can be graded more than 20 points. To guarantee that no one’s assignment is lost, students are advised to try and send a scan of their hand-written assignments (no bonus points, however) and in any case to keep a photocopy of it. The grade will be based, however, only on the hard copy’s content.

In any case of unclear hand-writing or poorly explained solutions, the responsibility is of the students. Such solutions will either not be graded or will be penalized, according to the TAs decision.

All students should submit their own work – copying will be treated according to university regulations.

With any concern regarding these guidelines, please contact the TA as early as possible to allow yourself enough time to prepare your assignment as required.
